Scroll down to "Hearing Devices".

2:07 1 **Accessibility Hearing Devices** MFI HEARING DEVICES Rachel riple-click the Side Butto any time to show hearing device options. **Play Ringtones Audio Routing** Control which audio is played i your hearing aids and sound processors. **Control Nearby Devices** Control hearing device settings on nearby iOS devices. **Audio Handoff** Take the hearing device connection from nearby iOS devices when audio starts. **Control on Lock Screen** Allow access to the hearing device shortcut at any time including the lock screen. HEARING AID COMPATIBILITY **Hearing Aid Compatibility** ()Hearing Aid Compatibility improves audio quality with some hearing aids.

If your hearing aids were paired to your device before, you'll see this with your name. Click this. If it says "Searching...", skip to step 5.

Questions? Call 847-662-9300

Click "Forget this Device" so
that your hearing aids can
re-pair.

h

Now you'll see that your phone is searching for your hearing aids.

Demos	Bluetooth Pairing Request would like to pair with your iPhone.		
Cancel Pair	Cancel	Pair	

For disposable batteries: Open the battery door(s) and then close them again. For rechargeable batteries: Either put in charger and take out, or turn them off by holding the down button for 4 seconds until it turns red, and then holding the down button for 6 seconds until it turns green again.

By restarting your hearing aids, they will be in pairing mode for 2 minutes. Your hearing aids should appear on the "searching" screen during this time.

Click the hearing aids when they appear and then click "Pair to Hearing Aids" (shown above). Note that if you have 2 hearing aids, you'll have to click "Pair" two times.

You are now paired and ready to use your hearing aids with your phone! Enjoy!
